Biomedicine

Content Focus

Journal of Bio-X Research is an international open access journal. The journal aims to publish original, high quality, peer-reviewed papers in a variety of fields that straddle the boundaries between biology and medicine. The journal focuses on interdisciplinary collaborative research in biology and medical science and promotes the application of advances in biology to modern medicine in areas such as etiology, pathophysiology, clinical diagnostics, and preventive medicine. It provides comprehensive coverage of interdisciplinary research, covering significant technical developments and applications in every area of biomedicine.

Organizational Affiliation

Chinese Medical Association

Editor-in-Chief

Lin He and David A. Weitz
