Orthopaedics; Surgery (Specialty)

Content Focus

Techniques in Orthopaedics is a peer-reviewed journal that provides information on the latest orthopaedic procedures as they are devised and used by leading orthopaedic surgeons. Articles also report on orthopaedic technology, as well as relevant health policy, legal and financial issues.

Techniques in Orthopaedics publishes four times a year. Issues are organized around a symposium on a single topic and integrate clinical and scientific concepts. Each issue is assigned a guest editor who is engaged with a broad view of topics including unresolved issues, evolving surgical techniques and research activities.

Editor-in-Chief

Bruce D. Browner, MD

Frequency

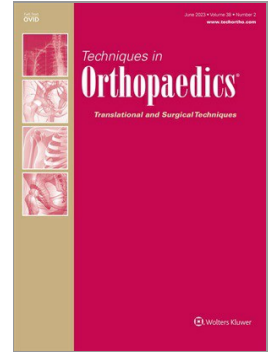

4 issues / year
