Content Focus

Clinical Neuropharmacology's mission is to publish high quality clinical and preclinical science in neuropharmacology and related fields with a vision of facilitating scientific progress and helping patients receive better care and better outcomes. The Journal is most interested in reviewing and publishing original research, whether clinical or preclinical. For clinical research, randomized clinical trials (RCTs) are the highest priority, however, the Journal is also interested in receiving manuscripts for observational trials. Next in publication prioritization are review meta-analyses and systematic reviews, with IPD-meta-analyses receiving priority publication consideration over aggregate meta-analyses, and systematic reviews receiving priority over scoping reviews. The Journal does not accept narrative reviews or case reports/series unless pre-approved by or invited by the editor. The Journal will review original study protocol, diagnostic/prognostic, qualitative and economic research, and quality assurance (QI) study manuscripts.

The Journal is excited to expand its scope to include NEUROTHERAPEUTICS, NEUROREHABILITATION, and TRANSLATIONAL NEUROSCIENCE, and will invite or solicit reviews on exciting new areas within these fields. All submissions will continue to undergo peer review to ensure they meet a threshold of excellence. The Journal will also explore forming relationships with societies, colleges, and workgroups in areas such as Consultation Psychiatry, Neurorehabilitation, and Biomedical Engineering.

Digital Advertising

Website Banners

Interstitial, run of site, and targeted banner options are available. Ask about how our audience targeting solutions can help you reach your ideal HCP.

Electronic Table of Contents (eTOCs)

Be seen in the first communication subscribers receive about their new issue. Advertise in just one ad position, or lock in 100% SOV with all positions. Exclusive advertisers can run different ads in each position for maximum exposure.

Enewsletters

Opportunity for advertisers to exclusively position messaging within an existing enewsletter from the editors of Lippincott's most valuable news sources. Specialty targeted, spotlight, journal and society branded enewsletter options available.

Custom Emails

100% advertiser-provided email sent to Lippincott's opt-in specialty audience. Over 130+ specialty audiences to choose from.

Job Postings

From basic job listings to sophisticated recruitment programs, a range of budget-friendly solutions place your positions at the fingertips of the right candidates at the right time.

Premium Sponsorship

Conference Coverage

Daily updates on the latest clinical research presented during key society meetings. Wolters Kluwer collaborates with experienced medical writers to attend meeting and provide summaries on highlights from sessions on a specific topic. Daily updates delivered through enewsletters to our engaged subscribers in the target specialty area. Summaries are hosted online roadblocked with client banner ads at 100% SOV.

Resource Centers

Custom-created therapeutic microsite addressing target HCP's or patients' needs for the most current information on disease states, procedures, and

effective treatments. Content is curated from multiple sources such as journal articles, book chapters, downloadable patient education materials and multi-media assets such as podcasts, webinars, and videos. Sponsors may provide assets and run of site banner advertisements at 100% SOV.

Webinars/Virtual Round Tables

A virtual discussion or presentation focused on education or promotion of a product or service. Engage with audience through surveys, giveaways, polls & quizzes to assess learning efficacy. Produced as On-Demand or Simulive. Audio-only or video options available.

Podcasts

Exclusive opportunity to align with top of class podcast content by directly speaking to target audience through a brief 15 second audio ad read by the podcast host at the beginning of the episode.

Videos

Exclusive opportunity to drive brand awareness and education through a video focused on a specific therapeutic area or disease state. Video is hosted on journal's home page. Advertiser provides video asset.

Interactive Infographics

Collaborate with Lippincott to create an interactive educational infographic with dynamic content in the form of text, tables and charts, images, and media to deepen engagement and enhance readers' understanding of complex data.

Case Explorer

Engage HCPs with interactive clinical simulations mirroring real-world decision-making. Designed by medical experts, this tool transforms content into evidence-based, scenario-driven experiences tailored to a therapeutic area. It boosts clinical confidence, deepens engagement, and delivers measurable ROI with seamless integration.

Sponsored Articles

Align recent trial data, DSE, or product innovations with trusted journals through this exclusive tactic. Sponsors can provide content, including advertorials and white papers, which are hosted on a custom URL with 100% SOV display banners. Promotional drivers are included to maximize visibility.

Point-of-Care Solutions

Integrate your brand into the patient's exam room experience and place your brand alongside the information patients take home to their loved ones. Sponsor branded anatomical charts, tear pads, disease state brochures, and more.

Journal Advertising

Print Ads

Place your message within our award-winning publications and peer-reviewed journals in medical, nursing, and allied health. Multiple sizes available as well as premium positions.

Cover Tips / Wraps

Include your advertising message on a duplicate cover sheet placed directly on top of the existing issue front cover. Cover wraps extend over both the front and back covers of the journal, while a cover tip-on affixes only to the front cover.

Inserts / Outserts

Inserts are printed on heavy paper stock to ensure the journal will break at your ad and get your message seen. Outserts can be polybagged and ride along with one of our journals.

Supplements

Advance HCP clinical skills and understanding of advancements in research through publication of a journal supplement. Journal supplements enable supporters to insert awareness of diseases and disorders, translate scientific developments into clinically useful information, and address important challenges facing practicing providers. Supplements may be developed in print as well as electronic formats, enabling inclusion of supplemental digital content, such as brief videos, peer-to-peer discussions, and additional tables and graphs.

Reprints

Print Reprints

Hard-copy reprints provide a credible leave-behind with staying power. HCPs read them, share them with colleagues, discuss them with patients, and save them for future reference. Leave behind after your sales force detail, distribute at your conference or meeting booth or polybag alongside journal subscriber copies. Visit our reprints portal and search our database to find the right article for your campaign needs.

Digital Reprints

Deliver the same journal content in electronic form and offer the added benefit of controlling and tracking the content. Leverage digital media to provide HCPs with critical content from the journals they know and trust. Embed an ePrint link into your advertising, share during a detailing call or email your licensed PDF directly to healthcare professionals. Visit our reprints portal and search our database to find the right article for your campaign needs.
