Content Focus

The *International Journal of Surgery (IJS)* is dedicated to the global advancement of surgical research, education and clinical practice. It aims to promote continued developments in surgery through the sharing of knowledge, ideas and good practice across all surgical specialties. The *IJS* provides readers with critically peer-reviewed, carefully selected/edited and up to date publications about advances in the field of surgery that are relevant to them.

The journal aims to develop and uphold the highest standards at the cutting-edge of research, provide a focus for evidence-based medicine through the publication of timely review articles and special issues and give the findings context, through the publication of editorials, commentaries and letters from the surgical community. We enforce reporting guidelines and mandate the registration of all research involving human participants in a publicly accessible research registry.

As a broad scope journal covering all surgical specialities, the *IJS* aims to facilitate the transfer of important ideas and lines of thought between and across specialties. In this way, the journal will help prevent the trend of increasing sub-specialisation leading to 'tunnel-vision' and the sequestration of important surgical advances within particular specialties.

Journal Advertising

Supplements

Advance HCP clinical skills and understanding of advancements in research through publication of a journal supplement. Journal supplements enable supporters to insert awareness of diseases and disorders, translate scientific developments into clinically useful information, and address important challenges facing practicing providers. Supplements are developed in electronic format enabling inclusion of supplemental digital content, such as brief videos, peer-to-peer discussions, and additional tables and graphs.

Reprints

Print Reprints

Hard-copy reprints provide a credible leave-behind with staying power. HCPs read them, share them with colleagues, discuss them with patients, and save them for future reference. Leave behind after your sales force detail, distribute at your conference or meeting booth or polybag alongside journal subscriber copies. Visit our [reprints portal](#) and search our database to find the right article for your campaign needs.

Digital Reprints

Deliver the same journal content in electronic form and offer the added benefit of controlling and tracking the content. Leverage digital media to provide HCPs with critical content from the journals they know and trust. Embed an ePrint link into your advertising, share during a detailing call or email your licensed PDF directly to healthcare professionals. Visit our [reprints portal](#) and search our database to find the right article for your campaign needs.
